Planning for Your Pet's Health

Here at Millcroft Veterinary Group we want to make preventative health care easy and affordable, to help you give your pets the best care possible. We believe that prevention is better than cure, rather than waiting until a pet is ill and suffering to put things right. Early diagnosis of health problems will help your pet to live a long and healthy life.

A pet health plan is not pet insurance. It covers the essential treatments your pet needs throughout life, such as vaccinations, flea and worm treatments and regular health checks.

Extra benefits of the plan include discounts on many other products and services at the practice. Read on for more information, or speak to one of our team today to find out more about our plan.

How do I join?

Simply fill out the form on the back and bring it in to the practice. The enrolment fee of £10 per animal (£20 for puppies/kittens) will be required at this time, along with your first months payment.

You will also need to bring your bank details with you. Direct debits will be taken on the 1st day of the month and you have 14 days to cancel should you need to.
